

# **SecondOpinions.com, a Leading Edge Telemedicine Company Provides Solution to Obamacare Challenges for Doctors, Patients, Employers and Insurance Industry**

*Unique Virtual Network Offers Patients Same-Day Second  
Opinions and Consultations/Watch ABC Television Interview  
For Benefits*

*Press Release: SecondOpinions.com – Wed, Jul 31, 2013 8:00 AM EDT*

FORT LAUDERDALE, Fla.--(BUSINESS WIRE)--

**USARAD.com**, a leading US Joint Commission Accredited teleradiology and telemedicine solutions company recently launched [SecondOpinions.com](http://SecondOpinions.com) a cloud-based internet service that enhances patient care by providing consumers with a new resource for informed health care decisions. This proprietary service brings the best that modern medicine has to offer.

Doctors across America can greatly benefit by joining our network. SecondOpinions.com is a service that connects patients all over the world to top American radiologists and physicians within all medical specialties by obtaining same-day consultations and second opinions from board certified and fellowship trained experts.

“The pressure to cut healthcare costs due to *The Patient Protection and Affordable Care Act*, also known as Obamacare, is taking a financial toll on physicians,” said Michael Yuz, MD, CEO and Founder of SecondOpinions.com. Yuz went on to say that while it is necessary to add efficiencies to our broken healthcare system, lower medical errors, prevent unnecessary medical

procedures and decrease healthcare costs, joining SecondOpinions.com will also assure that the doctors are compensated for their expert advice 24/7 and regain their income!

If you are concerned that the new health care reform act will lower your salary, or even jeopardize your career, by joining secondopinions.com, network physicians will have the opportunity to offer second opinions to their own patients or other patients within the state that they are licensed, from the comfort of their own homes.

SecondOpinions.com invites expert physicians to join our network and utilize this unique opportunity to earn extra revenue at a time when Medicare and insurance compensation to doctors is diminishing. SecondOpinions.com is comprised of a network of thousands of board certified doctors who provide consultations in all medical specialties as well as primary care. Due to an exponential growth we are seeking many additional expert doctors in most specialties and subspecialties including Radiology, Cardiology, Urology, Emergency Medicine, Orthopedic surgery, Neurosurgery, Dermatology, Oncology, Neurology, Ear Nose & Throat (ENT), Anesthesia, General Surgery, Pulmonology, Pediatrics, Internal Medicine, Thoracic & Vascular Surgery, Obstetrics & Gynecology and many others.

The benefits of joining our network are clear. Typically, doctors cannot spend as much time with their patients as they'd like due to system inefficiencies and time constraints. SecondOpinions.com provides the environment for doctors to see patients virtually on demand to answer their questions or offer a second opinion.

SecondOpinions.com's patent-pending, fully automated platform allows patients to easily upload original radiological images to a HIPAA (Health Insurance Portability and Accountability Act) regulated, secure and confidential platform and receive an expert second opinion within hours. The price, ranging from \$29.00-\$99.00 per report, makes the service both accessible and affordable. Expert subspecialist radiologists are available 24/7/365 in all 50 states. In addition, physicians in virtually all medical fields have the opportunity to provide second opinion consultations via telephone and video chat at an affordable price as low as \$49 per 5-minute consultation.
