USARAD Holdings, Inc., a premiere US Joint Commission Accredited teleradiology and telemedicine solutions provider recently launched SecondOpinions.com to benefit multiple stakeholders including consumers, employers, insurers and healthcare providers. This unique service connects patients globally to top U.S. physicians in any specialty and sub-specialty.

SecondOpinions.com just announced that it will begin broadcasting a monthly 30 minute radio show. Michael Yuz, MD, MBA founder and CEO of USARAD Holdings, Inc., will be featured live on the first show Saturday, October 19th at 8:30 am EST on WSBR 740 AM radio station and simultaneously on WWNN 1470 AM in Boca Raton. Dr. Yuz will tell the world his unique story about how he launched SecondOpinions.com. The show will also be audio-streamed on the Internet when it is aired, and can be heard by going to <http://www.wwnnradio.com> and clicking on “LISTEN LIVE.”

In the coming months, the Second Opinions Radio Show will air for 30 minutes once a month on Saturdays. The airing times will vary from month –to- month and the schedule will be available on SecondOpinions.com website. Each show will tackle different critically important health-related topics and discuss how second opinions decreases medical errors, save lives, prevents unnecessary procedures and surgeries and decreases healthcare costs. “Due to the complexity of medicine and especially radiology, it is essential for every patient on the planet to have a second opinion option available to them at their fingertips and at an affordable price,” says Yuz. He urges people to educate themselves on the importance of obtaining a second opinion. “It could be a matter of life or death,” says Yuz.

SecondOpinions.com allows patients to simply upload their radiology images (MRI, CT etc.) to a HIPAA regulated, secure, confidential platform and receive a report in the privacy of their own home or office. In addition, US board certified doctors in virtually every medical specialty are on standby to provide consultations via phone or video chat. Second Opinion and Telemedicine consultations occur between patients and physicians as well as two physicians.

No appointments are needed, patients don’t have to wait days or weeks for a new consultation and your second opinion is received within hours of submission. The prices range from \$29.00 -\$99.00 per radiology report and start from \$49 per telephone consultation. Expert physicians are available 24/7/365 and licensed in all 50 states. Memberships are now available for individuals, families, medical professionals and facilities as well as employers.
