## LATEST HAPPENINGS AT SECONDOPINIONS.COM

October 31, 2013

### SecondOpinions.com Radio Show

#### SecondOpinions.com is Hitting the Airwaves with a Monthly Radio Show

On October 19, 2013 the Secondopinions.com Radio Show debuted on WSRB 740 AM radio station and simultaneously on WWNN 1470 AM in Boca Raton. The show will also be audio-streamed on the Internet while it is airing and can be heard by going to [www.wwnnradio.com](http://www.wwnnradio.com) and clicking on "LISTEN LIVE."

In the coming months, the Second Opinions Radio Show will air for 30 minutes once a month on Saturdays. The airing times will vary from month -to- month and the schedule will be available on SecondOpinions.com website. Each show will tackle different critically important health-related topics and discuss how second opinions decreases medical errors, save lives, prevents unnecessary procedures and surgeries and decreases healthcare costs. "Due to the complexity of medicine and especially radiology, it is essential for every patient on the planet to have a second opinion option available to them at their fingertips and at an affordable price," says Mike Yuz, MD, CEO and Founder of SecondOpinions.com. Yuz urges people to educate themselves on the importance of obtaining a second opinion. "It could be a matter of life or death."

### South Florida's Leading Physicians' Discuss Health Issues Affecting Boomers and Seniors at C.U.R.E.

#### CEO and Founder of SecondOpinions.com to Speak at 3<sup>rd</sup> Annual Symposium

Mike Yuz, MD, MBA, Founder of [SecondOpinions.com](http://SecondOpinions.com) will be joining South Florida's leading doctors and researchers at the 3rd annual C.U.R.E.™ (Cutting-Edge Understanding Research and Education) Symposium to be held Saturday, November 16, 2013 at the Boca Raton Marriott at Boca Center. The group of leading physicians will be speaking about important health topics affecting the general public, but focusing on boomers and seniors. For the first time, this year's event will be broadcast on [BECON Television](http://BECONTelevision) (CH. 19 & 63) from Vero Beach to Homestead.

The Symposium is free to the public and gives folks a rare opportunity to listen to local doctors and scientists discuss the latest medical breakthroughs in a variety of fields including neurology, pain management, men's and women's health, plastic surgery, medical technology, and other fields. Dr. Yuz, a radiologist & entrepreneur will be speaking about "Second Opinions; The Wave of the Future."

## LATEST NEWS AT SECONDDOPINIONS.COM

# Why do you need a second opinion?

### SecondOpinions.com Featured Physician of the Month

Our featured physician  
of the month is

**Donald Frank, MD a  
Board- Certified  
Neurosurgeon from  
New York.**

Dr. Frank was on staff  
at NYU Medical Center  
in New York where he  
taught neurosurgery to Residents and  
Fellows.

In addition to the many life altering,  
surgeries he has performed, Dr. Frank is  
also an innovator in the field of  
neurosurgery and has been credited for  
developing several neurological  
procedures that are changing the way  
neurosurgery is being performed today.

Dr. Frank consults with our patients in New  
York who need a neurological second  
opinion consultation and believes that  
second opinions are essential. Most  
recently, Dr. Frank consulted with 2 of our

patients who needed a second opinion  
after having MRI's that were  
misdiagnosed. Both patients were told  
they needed spine surgery and  
apparently did not. This is why getting a  
second opinion is so important. Second  
opinions decrease medical errors, save  
lives, and keep healthcare costs down by  
preventing unnecessary surgeries and  
procedures. It also provides you with the  
peace of mind you need and deserve.
