**"High quality affordable reports & quick turnaround!
It's just what I need to be competitive in the current
market."**

Dr. Richard Helzner, Imaging Center, Philadelphia, PA

**"We have switched many teleradiology groups before
we found USARAD.com. They consistently provide
unmatched service, price, and turnaround time. I
recommend USARAD.com without any reservation."**

Simon Korenblit, Imaging Center, Brooklyn, NY

**We are in a geographic area that seems to be difficult
to recruit radiologists. USArad.com provides the exact
service that we need."**

Dr. Juan Gaia, Imaging Center, Wilkes-Barre, PA

**"USARAD.com delivers unmatched service and
expertise to our imaging centers in NY and NJ. They
provide real time turnaround, subspecialty reports
and customer service as we have never experienced
before. We can say with confidence that USARAD.com
is a true teleradiology leader, and we highly
recommend them to anyone."**

Dr. Steven Brownstein, Imaging Center, NY & NJ

www.USArad.com

OUR HISTORY

USARAD.com was formed by a collaborative effort of American radiologists, all Board Certified by the American Board of Radiology

We recognize the need for high-quality, reliable on-call and daytime radiology and teleradiology services

Each radiologist brings their experience from some of the finest radiology departments in the United States

Our model is unique. USArad.com is privately owned and operated by radiologists without corporate bureaucracy or middlemen

OUR GOALS

- 1 To improve patient care by providing subspecialty and general radiology expertise
- 2 To provide succinct, informative, and well organized reports while providing courteous feedback to imaging centers, hospitals, and referring physicians
- 3 To lower professional expenses by providing a cost-effective radiology solution by utilizing the most advanced technology on the market today

Personalized full service Radiology Company
Physician owned, managed and operated
No middlemen or complicated bureaucracy
Rigorous QA program
Industry leading TAT
